# ULLTRA SIGN

➤ FLAT LIGHTWEIGHT COMPOSITE PANELS

## GALLERY OF ALUMINIUM COMPOSITE PANEL SYSTEMS

Aluminium composite panels are widely used for display, signage, as signboards and for advertising panels.

# TECHNICAL INFORMATION

Easily maintained, flat, lightweight panels with a surface finish to suit precise printing.

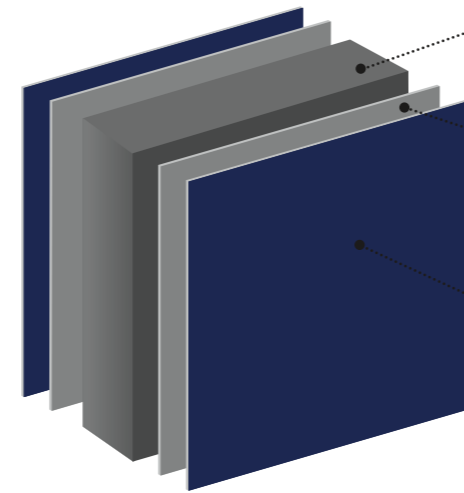

With the digital age more people are embracing the idea that creative work environment helps stimulate minds and inspire innovation.

Wall graphics are the fast and easy way to transform your work environment.

Available in a wide range of standard colours, Project colours can be ordered on request.

Please note: Reference colours have been matched as closely as possible.

We recommend that you use production line prepared samples for final colour selection or approval.

Core Material
> Black Polyethylene
> Non-combustible mineral
> Fluted PP
> Honeycomb & Spherical aluminium
Surface Treatment Options
Paint types - Polyester, PVDF, Nano-PVDF, Wood Grain, etc.
Available Surface Finishes
> Standard aluminium
> Brush (Anodised)
> Mirror (Anodised)
> Powder coated (Gloss or Matte)

Ulltra Panel sign grade is a sandwiched panel consisting of low-density polyethylene core bonded to two thin coil-coated aluminium sheets. The core is typically black.

Ulltra Panel Fire Retardant is composed of non-combustible mineral core with a small amount of low-density polyethylene sandwiched between two aluminium sheets. The core is white or grey.

Topside of ACM is coated with different kinds of paint such as polyester, PVDF, Nano-PVDF, etc.

## ULLTRA PANEL FABRICATION SERVICE

Ullrich Aluminium can provide a fabrication service direct ex-mill, on offer is an array of machining and fabrication services, these in accordance to customer request and technical drawings.

Ulltra Panel fabrication services reduce labour content and provide a ready made and installable end product to the customer and assists with the onsite construction convenience.

The fabrication services include:

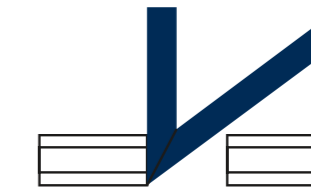

- > Cutting / punching / stamping / drilling / folding
- > Shaping / forming / assembly
- > Customised fabrication according to CAD drawing
