- Replacement covers and extra vents available on request.

**THE ECONOMICAL ALTERNATIVE GREENHOUSE**

A revolution in home and market gardening, the Dynamic Growing Tunnel is the most efficient, economical and comfortable way of growing fresh, flowers vegetables, in all seasons, in all weathers.

For well under half the price of glass the Dynamic Growing Tunnel provides a return of fresh vegetables all year round, with yields 80% – 90% higher than outdoor cultivation.

Safer than glass, the tough and durable Agphane that covers the tunnel, contains Ultra Violet sun ray inhibitors. Agphane absorbs the maximum heat from the sun during the day, providing a higher temperature during the night, 4° than other polythene products.

**MODEL 8/8**

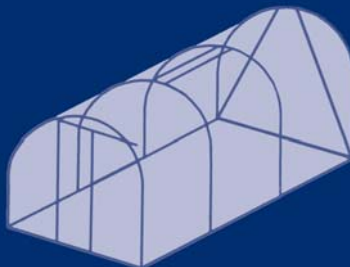

- | roof vent
- | sliding door

**Mini Budget Tunnel**  
 2.3m long x 1.5m wide  
 2 metres high
