

BENEFITS OF ALUMINIUM SEATING

- Lightweight and robust material that offers easy transportation and installation.
- Sturdy, heavy-duty construction resists wear-and-tear and vandalism.
- Smooth contours and rounded edges present a snag-free, user-friendly and functional facility.
- Reflective surface stays cooler to the touch as the hollow profile disperses heat in summer sun.
- Hardwearing anodised finish does not stain, rust, crack, warp or splinter; requires minimal maintenance, resists extreme weather conditions and the effects of sea air and pool chemicals. No painting required.
- Aluminium seating is suitable for adults or children and is available in 300mm, 350mm and 400mm heights as standard.
- Choice of either in-ground or above-ground installation.
- Powder coated to the colour of your choice.

For information on this Ullrich product, either, contact your Ullrich salesperson, refer to the back of this brochure for your nearest Ullrich Aluminium Sales Centre, or freephone 0800 500 338 for assistance.
