

Ullrich Aluminium

EARTHQUAKES AND CLADDING

Take the guesswork out of the performance of your cladding system

Ullrich Aluminium is proud to announce the success of the Ulltraclad Aluminium weatherboard following BRANZ seismic testing. Ulltraclad passed with flying colours *"showing no observable damage during testing"*.

This provides peace of mind when making the decision on your next building project. Ulltraclad is available in six different profiles and can be powder coated in a range of colours.

Reduce the risk and build with peace of mind.
